## WITNESS IN THE ARBUCKLE CASE FLEES WITH WOMAN

NEW YORK, September 21.—Lowell Sherman, an actor who is wanted by District Attorney Brady, of San Francisco, in connection with the case against Roscoe Arbuckle, today left a train at Harmon, N. Y., when on the way to New York, and vanished in an automobile with a red haired woman. This information was given to a representative of District Attorney Swan's office when he went to Grand Central station here to meet the Twentieth Century Limited from Chicago and detain Sherman, as requested in a telegram from District Attorney Brady.

## REPUBLICAN WINS IN NEW MEXICO

ALBUQUERQUE, N. M., Sept. 21.—W. C. Oestrich, in charge of Democratic state headquarters here today conceded the election of John Bursum, Republican, as United States senator over Richard H. Hanna, Democrat.

With reports from every county in the state in a majority of which the vote virtually was complete, O. L. Phillips, Republican campaign manager, claimed Bursum's majority would exceed 7,000.

## Plan New Probe In Coal Fields

WASHINGTON, D. C., Sept. 21.—A new investigation of conditions in the West Virginia coal fields was proposed today by Representative Foster, Republican, Ohio, who suggested that the inquiry be undertaken by a house subcommittee.

## Negro Is Lynched

McCOMB, MISS., Sept. 21.—Edward McDowell, negro garage employee and industrial helper, was hanged by a mob two miles from here Monday. The McComb police say they know of no motive for the lynching. An automobile party, they said, drove up to the premises where the negro was sleeping, forced him into the car and departed hurriedly.

## Named Minister To Switzerland

WASHINGTON, D. C., September 21.—Joseph C. Grew, of Massachusetts, was named today by President Harding to be minister to Switzerland. At the same time the president named John Dwyer, of New Jersey, a professor in Columbia University, to be minister to Denmark.

## ELECTED MODERATOR

CHILMARK, Mass., September 21.—Frederick Kicker was elected moderator of the annual conference of the Presbyterian church at Chilmark today.

## HARBONE'S MEDITATIONS

THEY SAY YOU JES' SLEEGED T' PECK ON 'EM. WHAT TAKES DEY PA, CASE DEY 'WAYS SO MUCH LAK 'Y YOU JES' CAINT STAN 'EM.

## Five Guests At Arbuckle Party Who'll Be Witnesses At Murder Trial

BETTY CAMPBELL, guest at the Arbuckle party, who testified before the grand jury, and who is being kept under watch by the prosecutor as a witness in the trial of Fatty Arbuckle.

DOLIA CLARK, guest at the Arbuckle party in San Francisco on Labor Day, which ended in the death of Virginia Rappe and the arrest of Arbuckle. She was an important witness at the grand jury hearing.

FRED FISBACK, of Los Angeles, also a guest at the Arbuckle party, has been ordered under surveillance by San Francisco police to prevent his leaving the city before the trial.

ZEY PYRON-PREVOST, guest at the Arbuckle party, and considered one of the most important witnesses for the prosecution of Fatty Arbuckle in connection with the death of Virginia Rappe.

ALICE BLAKE, guest at the Arbuckle party, whose testimony before the grand jury helped indict Fatty Arbuckle for manslaughter in connection with the death of Virginia Rappe.

## Ku Klux Klan Facts Laid Before Harding

WASHINGTON, D. C., Sept. 21.—Information in the hands of the department of justice as to the activities of the Ku Klux Klan was laid before President Harding today by Attorney General Daugherty after the latter had conferred with Director Burris of the department's bureau of investigation.

## What's The Matter With Us, Anyway?

SAMUEL M. VAUCLAIN, PRESIDENT OF BALDWIN LOCOMOTIVE WORKS, ANSWERS QUESTION FOR THE TIMES.

By SAMUEL M. VAUCLAIN, President, Baldwin Locomotive Works.

THE chief thing that is the matter with us is lack of capital. That is the outstanding link in the endless chain of reasons for business depression and unemployment.

And the reason why so many people do not understand what is the matter with us is this:

People are not willing to realize that work—not money—is the basis of prosperity.

We do not get enough labor for the money we pay; nor enough food, nor clothes, nor housing. We are suffering from a depreciated value of our own money. Our money's value is unimpaired in other countries—but we can't sell our goods abroad, and we only get 40 cents value on the dollar here.

The only way to analyze the business situation is to ask:

What's the matter with us, anyway?

What is the cause of business depression? What can remedy conditions? These questions everyone is asking. For they affect everyone intimately, vitally. Everyone is feeling the effects of commercial stagnation, either in wages or dividends.

The Times, through NEA Service, has asked men who should be able to answer these questions for their diagnosis of the situation. It has received signed statements from:

SAMUEL M. VAUCLAIN, president of the Baldwin Locomotive Works.

## Treaties Sent To The Senate

WASHINGTON, D. C., September 21.—The treaties with Germany, Austria and Hungary were sent to the senate for ratification today by President Harding.

The treaties were accompanied only by a brief formal note of transmittal, and were sent to the capital by a White House messenger.

## What's The Matter With Us, Anyway?

WALTER C. TEAGLE, president of the Standard Oil Co. of New Jersey.

SAMUEL GOMPERS, president of the American Federation of Labor.

JULIUS KRUTSCHMITT, chairman of the executive committee, Southern Pacific Railroad.

J. GORDEN ARMOUR, president of Armour & Co.

OTTO H. KAHN, of Kahn, Loeb & Co.

TREDDORE H. PRICE, editor of Commerce & Finance.

J. PARKE CHANNING, chairman of Hoover's Engineering Committee on Elimination of Industrial Waste.

WILLIAM C. REDFIELD, former U. S. Secretary of commerce.

WILLIAM FELLOWS MORRIS, president of the Merchants' Association of New York.

DR. E. F. LADD, U. S. senator from North Dakota.

LESLIE BOLLES, national adjutant, American Legion.

ALFRED REEVES, general manager, National Automobile Chamber of Commerce.

JOHN L. LEWIS, president of the United Mine Workers of America.

FRANCIS H. Sisson, vice president of the Guaranty Trust Co. of New York.

BENJAMIN M. ANDERSON, JR., first as general as generally believed, Ph. D., economist of the Chase National Bank, New York.

In these signed statements analyzing the situation—the first of which is published here—others, of which will follow daily—these authorities give various opinions, but these views recur frequently:

FIRST, that lack of capital is chiefly to blame.

SECOND, that faults in the system of taxation and sudden restrictions enforced by the federal reserve system have contributed.

THIRD, that Europe's economic illness is a great factor.

FOURTH, that unemployment is

## Congress Reconvenes For Important Work

WASHINGTON, D. C., September 21.—Congress reassembled at noon today after a recess of thirty days which began August 21, with prospects that the extra session would lapse into the regular session beginning in December.

Under a gentlemen's agreement in the house, however, that body is to begin immediately a series of three-day recesses, until October 1, while the senate goes ahead at full speed on tax revision, the ratification of peace treaties with Germany, Austria and Hungary, and with a number of other important measures, including the anti-trust, railroad debt funding, allied debt refunding and Panama Canal tolls bills.

Presentation to the senate of the peace treaties and possibly of the revenue bill was expected to be the principal event today, although there was a possibility that only a perfunctory session would be held and business put over until tomorrow. The tax measure was to be reported out by the finance committee and the peace treaties were to be transmitted with a brief note by President Harding. Indications were that both the revenue bill and the peace treaties might be considered virtually simultaneously when taken up. Speedy progress is expected with the former, but a hard fight is said to be in prospect against the treaties by Senator Borah, of Idaho, and a few other Republicans and Democrats, because of their opposition to what they consider European entanglements.

Because of the enforced absence, beginning in November of Senator Lodge as a delegate to the armament conference, it is expected that actual leadership may develop during that period on the Republican side in the senate. Senator Curtis, of Kansas, vice chairman of the Republican conference and party whip, it has been indicated, may be elected president pro tempore of the senate in case Senator Cummins, of Iowa, who now holds that office, should desire to relinquish it because of ill health. In such event, it is expected that Senator Watson, of Indiana, will succeed Mr. Curtis as Republican whip.

## SALE OF MATERIAL TO MAKE HOME BREW IS ILLEGAL

COLUMBUS, O., September 21.—Two hundred gallons of non-intoxicating fruit juice may be manufactured tax-free by the head of a family, by registering with the collector of internal revenue, according to instructions received here today from Washington by federal revenue agents and the office of the federal prohibition commissioner for Ohio.

The instructions, designed to clear confusion that has arisen following reports that the head of a family might manufacture 200 gallons of wine without payment of tax, declared that intoxicating home brew and distilled spirits may not be made, and that the sale of material for some brew, even though the alcoholic content of the beverage is intended to be less than one half of one percent, is illegal. The new instructions declare that materials intended for use of making intoxicating liquors have no property value and may be seized and forfeited.

"This tax exempting provision has been the source of confusion," the statement says. "The effect of this is not to allow the manufacture of 200 gallons of intoxicating wine free from restrictions of the national prohibition act, but merely to allow the manufacture of 200 gallons of non-intoxicating fruit juices free of tax."

## Three Slain With Club

DOWAGIAC, MICH., September 21.—A blood stained club, nail-studded and a bloody finger print were the only clues today by which local authorities hoped to clear up the murder of three persons and the serious injury of another, a child, in their home here.

William Monroe, his wife, and their 17-year-old daughter, Neva, were found beaten to death with the club. In the same room was found Ardith Monroe, ten-year-old daughter, who had been beaten on the head until unconscious. The little girl was made blind by the blows. Although her recovery is said to be doubtful, officers hope she may be revived sufficiently to tell the story of the attack.

The tragedy was discovered yesterday when Ardith's chum, Grace McKee, entered the home after hearing Ardith's moan. Alongside of Ardith, beside a bed, lay the body of her sister. In another bed lay the bodies of the parents.

A club into which nails had been driven, was standing against the wall. On the wall nearby was a bloody finger print.

The club had been used to beat the heads of the victims almost beyond recognition.

The interior of the home indicated no struggle had taken place and the bed clothing was not disarranged. Leading officers to believe the three had been killed while they slept.

Neighbors asserted the crime probably took place Saturday night as members of the Monroe family were last seen at that time. It is believed Ardith lay wounded on the floor nearly sixty hours before being discovered.

Authorities so far have been unable to establish a motive for the crime as the home was not robbed. Officers believe it was the act of an insane person. Two inmates of the state hospital at Kalamazoo may have escaped a week ago and officers are searching for them, although hospital authorities declared neither of the men was of the criminal type.

## Big German Munition Plant Blows Up

PARIS, Sept. 21.—One thousand persons are reported to have been killed and several thousand others injured at Oppau, near Frankenthal, in the Rhine Palatinate, through explosions in a chemical products plant, according to a Mayence message to the Havas Agency received here today.

The town of Oppau itself was entirely destroyed by the explosions, the advices state. The force of the shocks were felt for a distance of nearly fifteen miles around. In Mannheim, one person was killed and about 50 injured. The cause of the catastrophe is not known.

MAYENCE, GERMANY, Sept. 21.—(By the Associated Press)—Eight hundred persons are reported to have been killed and many injured today by explosions in the Badische Anilinfabrik works at Oppau near Frankenthal, in the Rhine Palatinate.

The disaster appears to have been one of the most terrible in the history of industrial catastrophes. The first explosion occurred when the shifts were being changed at 7:15 a. m. in a laboratory where 800 men were working. All of these are reported to have been killed.

This explosion was followed by a rapid succession of others, which rendered assistance to the first victims impossible. The concussions were so terrific that they were felt in this city some 35 miles from the scene while at Mannheim, 13 miles distant almost every window was shattered and several persons were killed and 3 injured by debris.

## Ohioans Flee High Waters

ATHENS, O., September 21.—Floods, resulting from a cloudburst at Corning at the headwater of Sandusky Creek, today caused hundreds of persons in the low lands between Gloucester and Athens to flee to the hills. Gloucester, Corning and Trimbull suffered heavy damage.

Several large coal mines are reported to have been flooded with heavy loss. Bridges have been wrecked, interrupting railroad service, and telephone and telegraph wires are down. The New York Central Railroad yards at Corning were badly damaged, and the Kanawha and Michigan line was washed out at Gloucester.

GALLIPOLIS, O., September 21.—A severe wind and electrical storm passed over this section of the state early today and did considerable damage. The Green Line wharf boat was damaged and the steamer Liberty was struck by lightning, torn loose from its moorings and blown across the Ohio river. The crew and passengers escaped injury.

ZANESVILLE, O., September 21.—A regular "twister" hit the business section of this city at noon today and damage to Main street business houses running into hundreds of thousands of dollars resulted. The storm came from the north and west and not at all directly over the city. The business houses from Sixth to Seventh, all four or five story structures, were unroofed and the roofs were hurled half a block up the middle of the street and on to the electric trolley and lighting wires. Scores of plate glass fronts are blown in on Main street and dozens of buildings were unroofed. An automobile owned and

## Mrs. Meenach Falls Off Street Car And Is Badly Injured

Mrs. Harvey Meenach of 1225 Mabert Road, was badly injured last night in a fall from a street car at the Peabody crossing in East Portsmouth. She was thrown to the street and suffered bruises and cuts on the back of her head and her left elbow.

and groin were injured. Mrs. Meenach, according to Dr. D. A. Bernad, suffers from dizzy spells, and she thought the car had stopped when in reality it was only slowing down for the Peabody stop. The injured woman was reported considerably better today.

## INDEPENDENT MUNICIPAL CLUB MEETS

Various political questions were discussed last evening at the regular meeting of the Women's Independent Municipal Club held at the home of Miss Nella Lorberg on Fourth street near Sinton. The speech made at the last meeting by Mayor William Gableman in which he explained the city's taxation problems, was discussed at some length. Various candidates have been interviewed by club members and reports were made last night on the results of these interviews. Several important rulings were made last evening, one of the most important being the temporary suspension of any member who might be a candidate for office in justice to other candidates.

Announcement was made by Secretary Mrs. Ruby Williams that a prominent candidate had been invited to

speak before the club at its next meeting, which will be held at the home of Mrs. A. R. Dameron, 1535 Gallia street. Mrs. M. E. Foster was appointed parliamentary critic last evening.

## Will Play Return Matches

Local tennis players who figured in part of a match against Huntington tennis players last Saturday will go to Huntington this week end to play return matches.

This time the locals will be accompanied by women players who will match their skill with women players

of Huntington. The men who will make the trip have not been definitely decided upon but will include the majority of those who played here last Saturday against the visitors. The women expected to make the trip are Mrs. H. Revere, Miss Edna Marting, Miss Lena Hauke and Mrs. Mary Hyland.

## CLARK DENIES HE HAD LIQUOR

George Clark of 1551 Eleventh street whose touring car was held at Foster's garage, Waverly from Sunday evening until Tuesday morning in connection with a charge of transporting liquor, claims that he did not

have any liquor in his car and says that Waverly officers did not have him under arrest. According to Waverly authorities Clark was released Sunday when his car was left at the garage for bail.

## UP RIVER GOLFERS TO PLAY HERE

Members of the Portsmouth Golf club are planning for a big day Saturday when members of the Tri-State Golf Association will be entertained

here. This Association was recently formed at a meeting held in Ashland. John F. Wilhelm of this city is secretary of the organization.

### The IDEAL Heat For Small Homes

Come in today and let us demonstrate ARCOLA—the wonderful new heating invention that pays for itself in the fuel it saves.

ARCOLA is a hot-water-heating outfit that is absolutely different. It is a Radiator and Boiler combined, designed to heat any small home, shop, office, store, restaurant or garage. And it gives you better heat at one-third the fuel.

Let us show you whereby you can obtain a great saving in your heating the coming winter.

Splendid headway is being made on the new high school building being erected at Black Fork. The first story has been completed. Evan Morgan of Jenton is the contractor.

## Bicycles Stolen

The police have been unable to find any trace of the thief who recently stole the bicycles of Marian and Augusta, daughters of Dr. and Mrs. H. A. Schirman of Chilbothe street.

## Vertebrae in the Neck

All mammals have the same number of vertebrae in their necks—seven. These seem adequate enough for a man or a mouse or a tiger, but very few for a giraffe. Yet there they are—count them—seven!

Your  
Heating Engineer—  
you used to call him  
Steamfitter

"During the first winter nearly one-half of their number died from exposure."

—ENCYCLOPEDIA BRITANICA

JUST three hundred years ago they landed on Plymouth Rock. They were a courageous company—as sturdy and stout as the best of us.

But nearly half of them died from exposure.

The land to which they came was the same land in which we live; the winter was no more severe than our winters now.

But nearly half of them died from exposure.

Almost no one in America dies from exposure today. And why? Because of the service of a group of quiet, unassuming men. Working without special notice or praise, the men whom you call Steamfitters and Plumbers have made the newest nation the healthiest and best-warmed nation in the world.

They have done a wonderful work for America; and yet their work is hardly more than begun. Statisticians say that 17½ million homes in America still have no heat except the heat of old-fashioned stoves.

**ARCOLA—**  
the Heating Engineer's wonderful  
new gift to the small home.

FOR years every Heating Engineer has longed for a hot-water heating outfit that would warm the small home as perfectly as the larger heating plants of the AMERICAN RADIATOR COMPANY warm mansions, cathedrals and even the White House itself.

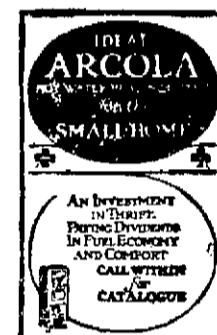

ARCOLA—a wonderful new invention developed after years of experiment—is the answer to that hope.

ARCOLA is unlike any heating equipment you have ever seen. It is radiator and boiler and hot-water heater combined to burn any kind of fuel. Set in the living-room, dining-room or kitchen, it radiates healthful warmth to every corner. American Radiators, connected with it by small pipes carry its warmth to every room upstairs and down. The kitchen tank, too, can draw on its deep fire-pot, providing an abundance of hot water for washing and bathing.

See ARCOLA today in the store of any Heating Engineer displaying the red and yellow card at the right.

ARCOLA is not only a great invention for the small home; it is a gift to the small home in a very real sense.

For, in the fuel it saves, ARCOLA is guaranteed to pay for itself.

If every man who can install a heating plant should work every day, it would take a generation to give modern healthful heat to those 17½ million homes.

An almost overwhelming task! But think of the overwhelming economy! Every IDEAL TYPE A HEAT MACHINE substituted for a wasteful furnace or boiler means that one family's fuel bill is reduced one-third.

Every ARCOLA, supplanting a furnace or old-fashioned stoves, slashes the fuel bill of another home.

Of all the services rendered to the modern home there is none which pays for itself more quickly or more surely than the service of the Steamfitter and Plumber.

Call your Steamfitter or your Plumber in now and have him go over your house and report; his counsel may save you money. Make it a point to consult him twice a year as you do your Doctor or your Dentist. And do not be surprised if the old name over his store has been taken down and a new one hangs in its place.

For the men whose science and skill have robbed winter of its terrors and removed the breeding-grounds of disease, have outgrown the names by which you have been accustomed to call them. Their work has become a profession: the Steamfitter and Plumber of yesterday are today the Heating and Sanitary Engineers.

# MORE MEN AT WORK AT STEEL PLANT

On the heels of the resumption of several departments of the Whitaker-Steel Co., came the pleasing announcement, officially made, Wednesday morning, that the three high rolling mills would resume operations on Thursday tomorrow morning, at 8 o'clock. This news came rather unexpected to many men employed on the three high mills, although it caused general rejoicing all along the line and was happily received. It will mean employment for quite a large number of men and will help bear out the prophecy that the big plant would be operating at fully 50 per cent normal before the first of the month. The blooming and bar mills resumed work this morning at 8 o'clock while the sheet mills and two high rolling mills started humming merrily on Tuesday morning. While the workmen have been idle for several months they went at their tasks in their usual efficient manner, glad of the chance to once more match their skill against the red hot ingots. It will take several days before the men get all the kinks out of their muscles, but they are willing to undergo that laborious process in order to meet their bi-monthly pay checks face to face.

## Writes About Trip East

D. W. Jewell, foreman at the U. S. Laundry on Fourth street is on a new trip to the East, having accompanied his brother-in-law, Lyle Cook and family back to their home in Washington.

Writing about his interesting trip Mr. Jewell says: "We left Portsmouth, Wednesday, September 14th, at 3:15 p. m. and arrived in Columbus at 7:30 p. m. spending the night there. Thursday, September 15th, at 10 a. m. Mr. Mahey, salesman of Eaton & Son Laundry Supply Co., came over and took me through the plant, which was very interesting. They use 1 1/2 car loads of corn and the same amount of wheat to make detergent and chewing gum, also paste oil and raw wool. Also used a rubber cleaning plant and it was quite wonderful to see an old man look like new when he had been through the plant; also visited the Acme Laundry Co., which is a new plant and very nice. We left for Washington at 10:15 a. m. Friday, September 16th, and arrived at 2:30 p. m. There I met my brother and his wife who drove to Washington with us in their car. Went through this plant, which is dry cleaning business. We left at 3:10 and arrived at Little

Washington, Pa., 7:30 p. m. We were on the road again the next morning at 8:30 and started over the Cumberland and Blue Ridge Mountains. "The mountains are very dangerous, consequently for the benefit of tourists unfamiliar with the mountain climbing there are signs on the top of every mountain and at every sharp curve, some of the signs were: "Prepare for Death," "Death where you are standing," "Where do you want to spend your eternity?" Summit Hill Town is 1505 feet long; Polish Mountain is 1025 feet long. "The trip over the mountain is too wonderful to describe, but as I said before a very dangerous trip for an inexperienced driver on account of the short curves, though the roads are excellent. We arrived in Washington, D. C. at midnight, September 17th after traveling from Friday noon. "The trip was more than interesting to our party as my father and grand father fought in the Cumberland Gap and in the Blue Ridge Mountains during the Civil War.

## Seiberling To Return To The Rubber Industry

CLEVELAND, O., September 21.—Attorneys representing F. A. Seiberling, former president of the Good-Tire and Rubber Company, of Akron, presented to Federal Judge D. C. Westenhaver, for his approval, this morning, a tender whereby Seiberling proposes to pay \$750,000 for the plant and business of the Portage Tire and Rubber Company, of Harborton, now in receivership.

Negotiations looking toward the consummation of this deal, which is in line with Seiberling's plan to return to the rubber industry on a large scale, have been in progress with the receiver and various representatives of stockholders and creditors of the Portage Company for some weeks. It is understood that the court approval is all that is needed to put the Seiberling interest in possession of the property. All other parties have agreed, it is asserted.

It is announced on the part of Seiberling that he intends immediately to resume production with the Portage plant. This will mean re-employment for about fifteen hundred men.

Seiberling declined to discuss reports that he was negotiating to buy additional plants.

## MOMENTOUS PROBLEMS BEFORE ENGLISH CABINET

LONDON, September 21.—Great Britain's sharp note to the Russian Soviet government relative to hostile activities of Bolshevik agents in the Near East and in India today claimed precedence in interest over the Irish situation. Mr. Lloyd George will probably have an informal talk over Irish affairs today with members of his cabinet who are at Harlech, Scotland, and Ireland will be the subject of a conference there tomorrow, but the protest sent to George Clitheroe, Soviet foreign minister, by Earl Curzon, secretary for foreign affairs, made public yesterday seemed to have many features which appeared to overshadow important developments.

The impression exists that Prime Minister Lloyd George intends to appeal to the country in a general election for a mandate in dealing with the Irish question, the problems arising from unemployment, the reparations situation and a number of other knotty matters which are pressing for settlement. The decision that neither Mr. Lloyd George nor Earl Curzon would attend the Washington conference on the limitation of armaments lent color to this belief.

Russia would be imperilled by continued hostile machinations by Bolshevik emissaries. The impression exists that Prime Minister Lloyd George intends to appeal to the country in a general election for a mandate in dealing with the Irish question, the problems arising from unemployment, the reparations situation and a number of other knotty matters which are pressing for settlement. The decision that neither Mr. Lloyd George nor Earl Curzon would attend the Washington conference on the limitation of armaments lent color to this belief.

### THE MOVIES

plays the part of Elsie Kirkwood, a young wife who uses woman's finest and most disturbing weapon, in defense of her husband. It is a photodrama whose power is as pronounced as the charm of the star.

Two Big Feature Shows Start Tomorrow For Three Nights At The Eastland Theatre With Mae Allison in the Best Picture of Her Career, "The Last Card," and Mark Samuels' Latest Bombshell of Joy, "Hard Knocks and Love Taps." With An All Star Semper Co. t

A woman's instincts, intuition, sixth sense—call it what you will—can sometimes solve a full murder mystery where the machinery of logic, as employed in the minds of the law fails. That is the unusual theme at the core of "The Last Card," to be shown at the Eastland Theatre tomorrow as the picture attraction for a run of three days.

Those who know what Bayard Veiller has done in "Within the Law," "The Thirteenth Chair," two of the strongest melodramas ever produced in America, will be interested in the announcement that "The Last Card" is a Bayard Veiller production, directed by Metro. It bears the stamp of this great wizard of the drama, and stands out prominently as one of the finest pictures seen in a long while. Added to this is the fact that May Allison has the starring part.

You Are Missing a Real Treat If You Fail To See "The Ten Dollar Raise" At The Eastland Theatre Tonight Last Time — It's The Truest-To-Life Tale The Screen Has Ever Offered—Whatever You Do, Don't Miss It.

Unit No. 2: "Spoons," a new Charlie comedy.  
Unit No. 3: "Birds and Flowers," a prize colors orchestra accompaniment.  
Unit No. 4: Associated Producers presents "The Ten Dollar Raise."

There is nothing which quickens the human pulse more than heart history. It is the road which never fails to produce a disconcerting note, the heart string which never fails to respond to the touch of the hand which has touched the heart of life. It is life!

In selecting his initial vehicle for presentation through the Associated Producers, J. L. Frothingham decided upon filming "The Ten Dollar Raise," a Saturday Evening Post story from the pen of a popular American writer—Peter B. Kyne.

"The Ten Dollar Raise" was decided upon for the reason that it is a drama wherein ninety million people of America's population can see themselves a story of everyday life with everyday situations brought out in a way to make you imagine you are one of the characters upon the screen.

It is the story of an elderly bookkeeper, who existed on a small salary for twenty years and lived on the hopes of a ten dollar weekly raise which never fails to respond to the touch of the hand which has touched the heart of life. It is life!

In selecting his initial vehicle for presentation through the Associated Producers, J. L. Frothingham decided upon filming "The Ten Dollar Raise," a Saturday Evening Post story from the pen of a popular American writer—Peter B. Kyne.

## Announce Arrival Of FALL and WINTER FASHIONS

Affording Harmony In Dress For The Woman and Miss

Soft fabrics, varied embroideries, lavish headwork and fringes and the new slashed and wide sleeve form the keynote to the Fall modes in dresses and gowns.

Smart lines combined with artistic effects in fine embroideries and extremely effective in the new tailored and fur trimmed suit modes. The handsome fabrics captivate one with their lovely soft tones.

Graceful silhouettes, rich embroidery treatments, large collars, wide sleeves and novel belting effects give the new coats a very appealing touch.

Angora scarfs and coats in romantic colorings are very new, also attractive plaid and plain white are shown in profusion.

Large sleeves with armholes that come from low waistline are seen in many of the costume blouses. Sequences of steel beads enhance ornate silk embroideries and ribbon and garn adorn the overblouses.

## What's The Matter

(Continued from Page One)

"These figures are deceptive," Secretary Shaw said, "because they were based on the number of men dropped from the abnormally large payrolls of industrial plants doing war work and that excessive work of 1919-1920 stimulated by war."

"Secretary of Labor Davis has now revised these figures to the estimate made by our association—nationwide unemployment of between 2,000,000 and 3,000,000. He points out that in normal times between 1,500,000 and 2,000,000 workers always are seeking jobs and changing from one position to another."

"I feel positive, after carefully surveying conditions in nine centers representing of various industries, that many of the people listed as unemployed actually are employed in some other line."

The special survey was made in these manufacturing centers: Pittsburgh, Detroit, Buffalo, San Francisco, St. Louis, Toledo, Bridgeport, Cincinnati, Reading, Pa., and Mobile, Ala. These were chosen for questionnaires on the basis that Pittsburgh is representative of the steel industry, Detroit of automobile manufacturing, Buffalo as typical of diversified industry of the east and of lake shipping, San Francisco as representative of Pacific coast, St. Louis of the mid-west, Toledo of automobile accessories, Bridgeport of the eastern machine shop trades, Reading as center of the Philadelphia district and Mobile as typical of agricultural implement manufacture.

## Result of Survey

This is what the survey shows: PITTSBURGH—Unemployed 50,000. No change available for comparison with unemployment before the war. Low point has been reached. No suffering among unemployed. Common labor got 15 to 18 cents an hour in 1914 and now gets 30 to 35 cents.

DETROIT—Unemployed 40,000 now, before war 15,000. Low point reached. No suffering among unemployed, but serious suffering among those who are suffering that may occur during winter. Common labor 20 cents in 1914, 25 to 40 cents now.

BUFFALO—Unemployed 28,000 now, as against normally from 5,000 to 10,000. Low point reached. Suffering exists. City furnishing groceries, shoes, coal at average of \$5 to \$8 a week, and city and private agencies planning extensive winter relief. Common labor 22 to 25 cents 1914, 25 to 30 cents now.

SAN FRANCISCO—Unemployed 12,000 to 15,000, double pre-war normal number. Low point reached. No suffering. No special preparations for winter relief. Common labor, 28 cents 1914, 35 cents now.

ST. LOUIS—Unemployed 45,000. Larger than normal, figures unavailable. Low point not yet reached. No serious suffering. Relief plans made for winter. Common labor 25 to 30 cents 1914, 35 cents now.

TOLEDO—Fifty per cent of factory employees unemployed, but many employed in other lines. Biggest plant just put on 1200 new workers. Unemployment 20 per cent more than normal. City appropriating funds to assist unemployed and give them work.

BRIDGEPORT—Unemployed 20,000 higher than pre-war period. Low point reached. No serious suffering, though some families being helped by city aid and appropriation made for winter relief. Common labor 12 to 18 cents 1914, 18 to 25 cents now.

READING—Unemployed 7,000. 20 per cent of the Turnbull Steel Company per cent higher than pre-war. Low point not yet reached. Very little suffering, but plans made for winter relief. Common labor 15 cents 1914, 20 cents now.

MOBILE—Unemployed 25 per cent of normal, 50 per cent irregularly employed and 25 per cent with steady work. Some pre-war jobs were as hard, but not for so long a period. Low point reached in industry. No serious suffering, but plans made for winter relief. Common labor 20 cents 1914, 20 cents now.

## Says Vauceain

(Continued from Page One)

ness situation is to analyze your own household. If you can bring its cost and its standards down to the 1913 level you will get along—but you won't have many things you have been having lately.

Apparently we must wait till hard times pull people down to doing without things to make them realize what has happened—and to get the dollar back to its normal value.

Conditions Improve  
In the readjustment we are now going through conditions are steadily growing better. But it will take a long time. Meanwhile everybody suffers—not only labor, or capital, or the farmer, or a certain industry.

Every live business man today is trying to get enough work to keep half his men working on reasonable times. The Baldwin Works are running 25 per cent of capacity. Steel mills are doing the same thing. Not because we don't want to run to capacity—but because the money is not available to swing it.

We are all working people, supporting each other. Closer plants throw thousands out of work, but that hurts the factory owner more than it helps him. A closed plant fairly eats up money, with no return. There are no dividends. Labor suffers because there are no dividends, for otherwise the plant would operate. And the stockholders are the public themselves, and they suffer when there are no dividends.

Cutting Prices  
A desperate effort is being made to reduce the cost of things. Steel is the basis of everything. If steel mills were busy, railroads would be busy, everybody would be busy. It's the endless chain—each of us dependent upon the other fellow, supporting each other: one on the rocks because the other fellow is on the rocks—no capital to float the ship.

What we need is for somebody to stick his finger into that endless chain and change things. Secretary Mellon has done that very thing with his new tax proposals. He has the right idea—you can't expect a revival in business unless business men have money left to do business with.

Money is here for use. It ought not be hoarded up. The ideal thing would be universal taxation, spread out so well that nobody would miss his individual contribution. The working man thinks he escapes taxation. The business man is taxed. But it always comes out of his line. There is no other way to get it.

Mistaken Idea  
It is a mistake for anybody, coming planning against unemployment, to think that if the business man doesn't have to pay an enormous excess profits tax or doesn't have most of his income taken away by the government the business man is being properly disciplined.

The working man has to pay too, for without that money there can be no new business, no new enterprise, nothing to make more work for everybody. Excess profits do not go into the strong-box; they do go back to labor to the public. Anybody can see that.

What's wrong with us is no capital and an endless chain of circumstances. Nobody in particular is to blame—everybody is!

TOMORROW—Benjamin M. Anderson, Jr., Ph. D., Economist of Chase National Bank, New York.

## YOUTHFUL BURGALAR CAUGHT

CINCINNATI, Sept. 20.—This city confessed burglar, Frank Von Hagen, 19, on his way back to the reform farm at Lancaster, today, after a long season of burglaries in Cincinnati. Von Hagen was captured late yesterday after attempting to enter an occupied residence in Look Island and confessed to numerous burglaries, the police say. He was taken to the general hospital where he was detained by Edward Boyer, 15, a newsboy, who said he was shot by Von Hagen in a hoodlum Saturday.

Hagen said the shooting was accidental. He was helped by city jail and appropriation made for winter relief. Common labor 12 to 18 cents 1914, 18 to 25 cents now.

WARREN, O., September 21.—Dividend declared by the Turnbull Steel Company per cent higher than pre-war. Low point not yet reached. Very little suffering, but plans made for winter relief. Common labor 15 cents 1914, 20 cents now.

MOBILE—Unemployed 25 per cent of normal, 50 per cent irregularly employed and 25 per cent with steady work. Some pre-war jobs were as hard, but not for so long a period. Low point reached in industry. No serious suffering, but plans made for winter relief. Common labor 20 cents 1914, 20 cents now.

## How To Keep Your Blood Pure And Wholesome

It Is the Person With Rich, Red, Normal Blood—The Person of Health and Energy—That Meets With Business and Social Success

A Lowered Vitality Is Usually Due to Waste Products in the Blood

When your blood is impoverished with waste products, S. S. S. purifies and builds with waste products. You get rid of your blood. You don't get the full strength out of your body. You don't get the full strength out of your food, and as a consequence, you don't get the full strength out of your work, nervous, and easily upset.

Waste products get into the blood mainly through the intestines. If you don't get the full strength out of your food, and as a consequence, you don't get the full strength out of your work, nervous, and easily upset.

For over 50 years, thousands and thousands of men and women have been cured by S. S. S. of all kinds of blood troubles. It is the only blood purifier that has been used for over 50 years.

## NEWS EVENTS IN PICTURES

The World's Luckiest Girl

How often have you wished that your parents had named you Bill—or Cleopatra—instead of Simon or Maud, or whatever they did name you? Well, this little girl will have no such regret. She's three years old and she has no first name! When she grows up she'll have the pleasure of choosing one she likes, thanks to her parents, Lieut. and Mrs. F. N. Pugsley. Temporarily she is just called "Pugsley." Lieut. Pugsley, U. S. N., has been stationed in Hawaii for two years.

Lloyd George's "Peace Pen"

Lloyd George snatched in Scotland, signing for a box of cigars sent him by anonymous American tourists, who wished him success in the Irish peace conference. See the pen he's using? "This is the pen," he said, "with which I signed the Peace Treaty and with it I hope to sign the Irish agreement."

## Her Clothes the Talk of Europe

A new picture of Mrs. Henry Smith-Wilkinson, of London and Paris, and her youthful husband. She is noted throughout three continents as a fashion spender and her magnificent clothes—furs, gowns and hats—are the sensation of Europe. It is reported that she will visit America this winter.

## Asks Ku Klux Quiz

## Einstein Stuff

No, it's not a new German fort—just a new telescope fort erected at Potsdam to test out the Einstein theory of relativity. There's a laboratory down in the bottom of the thing, and incidentally, the telescope purchased was made in America.

## Arbuckle Prosecutors

Milton U'Ren, left, assistant district attorney of San Francisco, will probably be in direct charge of the prosecution of "Fatty" Arbuckle. Matthew Brady, right, is district attorney. He will direct the prosecution. Arbuckle was arrested after the death of Virginia Rappe, film actress.

## Virginia Rappe's Torn Waist

Virginia Rappe's torn waist, which with the rest of the clothing worn by the film actress at "Fatty" Arbuckle's house party in San Francisco, will be important exhibits in the Arbuckle trial. After the girl's death the torn garments were taken to Los Angeles, by a friend of Arbuckle. They were later produced and turned over to the authorities.

## SAYS HER RECOVERY IS ALMOST LIKE A MIRACLE

From Helpless Invalid to Complete Restoration of Health, Strength and Happiness Is Wonderful Change Mrs. Root Experienced in Three Weeks—Statement One of Most Remarkable On Record.

MRS. JENNIE ROOT

"Just a week before I started taking Tanlac I was down in bed so crippled up with rheumatism I could not move without help. My son had taken Tanlac, and it had done him a world of good, so one day he brought home a bottle and said, 'Mother, I want you to take this.' When I had finished that bottle, I felt like a different woman, and by the time I had finished my second bottle, I was out in the garden laughing."

"Tanlac has simply done wonders for me; it almost seems like a miracle. This is the remarkable statement made recently by Mrs. Jennie Root, residing at 1430 Powers St., Portland, Oregon, and is only one of tens of thousands from well-known men and women who are daily testifying to the powers of Tanlac."

"Continuing her wonderful statement, Mrs. Root said: 'For years I suffered terribly with rheumatism, and would often be down in bed for days at a time. In the last five years there was not a time that I didn't feel those rheumatic pains all through my body. About two months ago I got very much worse and my arms and legs were so bad I was almost helpless and couldn't even hold a pen to sign my name. I was so weak I could not do any housework. I couldn't even sleep, and had no rest day or night. Even to walk a few steps would fire me out completely. When I tried to walk I would stagger and when I did walk a little way and sat down I could not get up without some one helping me. I had no appetite and hardly ate enough to keep me alive. I could not sleep over far enough to get my shoes on. I never knew what a night's sleep was, and would be awake for hours. At times I would get very cold and would have to get up and sit by the fire all huddled up, and my daughters would put hot water bottles all around me. I was treated by four doctors and took all kinds of medicine. Nothing ever did me any good. I am just like a different person now. All those terrible aches and pains

have left me, and only the other day I was able to walk up long flights of stairs in an office building when the elevator was out of order."

"My appetite is just splendid now, and just today for the first time in years, I felt so hungry that I had to go and eat a piece of pie between meals. In fact, I can't remember the time that I have felt as well as I do now. I have not only regained my health and strength, but I have gained fourteen pounds in weight. To tell you the truth, I wouldn't exchange the benefit I have received from Tanlac for the best ranch in Oregon, and I will praise it as long as I live."

Tanlac is sold in Portsmouth by the Fisher and Strick Pharmacy and by leading druggists everywhere.—Advertisement.

## Organized Labor To Ask National Bodies To Help In Armistice Day Celebrations

BY DAVID LAWRENCE

(Copyright, 1921, by Times Pub. Co.)

WASHINGTON, Sept. 20.—American labor has asked the American Legion and other national organizations to cooperate in demonstrations throughout the United States on armistice day not only to celebrate the victory of 1918 but to impress the delegates to the conference on the limitation of armaments with the fact that the American people confidently expect a program to be adopted which will reduce military and naval expenditures and minimize the chances of war.

## Plan Parades and Meetings

Samuel Gompers, president of the American Federation of Labor, today disclosed his plans for parades and mass meetings on November 11 which may exceed in point of numbers the procession of Labor Day in past years.

Mr. Gompers feels that Armistice Day passed last November without that glorification of the event which is necessary to instill in the minds of people a true appreciation of the sacrifices that were made to win the victory. The day should be, he believes, an occasion for expression of the antiwar sentiment needed to insure a program of enduring peace. Mr. Gompers makes it plain that he is not championing a class movement. The simply is notifying every trade union headquarters in every city and town in the United States that labor should do its part in what he hopes will be taken up by other civic bodies as a national celebration. When Armistice Day has passed, it is the hope of the American Federation of Labor that a permanent committee of several national organizations interested in disarmament and the cause of peace will unite and bring respectful pressure to bear on the conference for the limitation of armaments so that there may be no doubt about the persistence of the American people on practical results. Mr. Gompers is in combination with the labor organizations of other countries. The building up of a worldwide sentiment for peace is the aim of the American Federation of Labor. It is intended to assure the delegates of all countries that they may ignore the jibes and misstatements made so far as they like toward lifting the burdens of taxation which have crippled Europe's production power and indirectly helped to bring on an industrial depression in the United States.

Mr. Gompers was asked what would be the course of the American Federation of Labor in the event that the conference failed to reach an agreement on the limitation of armaments. Would he favor the reduction by the United States of its army and navy irrespective of what other powers did?

## Gompers' Opinion

"I have always opposed and still continue emphatically to oppose any suggestion that the United States disarm alone," replied Mr. Gompers. "So the movement of the American Federation of Labor does not ask the impossible but aims to bring out public opinion in such a way as to cause the delegates how unmistakable the public sentiment for an agreement on armaments. Propaganda is already in full swing. Inside our own government are many men who doubt the possibility of any agreement on military or naval expenditure. Also there are those who believe the United States ought to continue her policy of abstinence and refuse to engage in any retarding agreements with the rest of the world."

## Want It Huge Success

On the other hand, organizations like the League of Women Voters and the American Federation of Labor are several church bodies are keenly interested in making the celebration of armistice day a huge success. One way, they believe, that success will come with millions of public opinions, mass meetings at which resolutions will be adopted. In other words, the organization of all those in the United States who favor armistice day is sought so that the celebration from Great Britain, France, Italy and Japan will be fully impressed by the proposals of the American delegates and will see behind them a popular demand for practical results and not an evasive set of academic resolutions.

## Claims Prisoner Breach Bail

CLEVELAND, O., September 21.—The state expected to close its case against Bonnie Boulogne, charged with the first degree murder of William Sly today, Louis, Kerner, 19, who filed the Washington conference on the witness for the prosecution yesterday. He pleaded guilty to the murder of Sly today. The state expected to close its case against Bonnie Boulogne, charged with the first degree murder of William Sly today, Louis, Kerner, 19, who filed the Washington conference on the witness for the prosecution yesterday. He pleaded guilty to the murder of Sly today.

## The Defense Declared

The defense declared today that it would call Billy Hunt, a witness in the murder of a patrolman who was killed in the Washington conference on the witness for the prosecution yesterday. He pleaded guilty to the murder of Sly today.

## TROUBLES THAT EYE STRAIN CAUSES

Vanish in many cases almost at once when the eyes get proper attention. Often the eyes are the first cause of these troubles. If a person has a error of vision or has reached middle life and is not wearing glasses, some troubles are almost sure to result. The wearing of suitable glasses removes the cause, hence the troubles end. We have no difficulty in determining what glasses are needed.

# Thousands View Fall Offerings Of Dame Fashion

## Style Show Week Is Opened Most Auspiciously

Rumors of 1921 fashions—of longer skirts and Chinese sleeves, of lowered waistline, "dressing panels" and zany colors, are now confirmed and revealed by the authentic presentations found in the opening of Portsmouth's Fall style show week last evening when a host of new and extremely effective creations were offered to the gaze of the women and men of Portsmouth for the first time. New garments fresh from their tissue paper wrappings—new models shown here for the first time, beautiful fall attire, luscious with radiant loveliness of youth, picture-perfect practical coats, the lushest of suits and gayer of frocks, attractive headwear, dainty dressings for the foot, all for midday, while authentic haberdashery including shirts, ties, hose, and kerchiefs, suits and overcoats, hats and shoes for mere man, are to be found in the windows of Portsmouth's Style Show held today each year a big help to their business in that it affords the public the opportunity to view the latest Dame Fashion has decreed.

The downtown streets were well filled from early in the evening until the rain started about nine o'clock. The River City Band gave concerts in front of the different business places and helped attract the crowds which gathered and then discussed the new creations of those who make it their business to set the style for each new season.

Just as children tire of their toys, especially when they hear of something new, so the feminine sex tire of their clothes when they hear the first sound of the weather trumpets which announce the approaching season and the introduction of new styles.

It's human nature for the feminine sex to desire things beautiful and those things which make them attractive so whether or not they have grown tired of the past season's clothes when the new season's appear, instinctively their once adored creations become passe and they are all for the new. Like clockwork it's "off with the old, on with the new."

There is never a "happy medium" for what suits one does not suit the other. What Paris wants, America does not agree to, so that's the way of it.

Half of the women remain partial to the short, full skirt and vow they will not wear the late long, tight, straight skirts as introduced this season. However against their will, if everyone else starts wearing the new length skirts those who objected invariably will come to it also. It is a matter of being in style whether they really and truly care for the style or not.

This coming season the skirts are to be decidedly longer although some flatly refuse to accept this. Also the new skirts are narrow, however, not as much so as the old "hobble" style, and flat in the back and front. A number of the over tunic drop to the heels in many of the evening dresses. The fullness to the skirts is given at the sides, arranged in various ways.

The sleeves are very unusual. On the street dresses the sleeves flare and are very large. Some of the coat sleeves seem to be very popular, those of georgette extending from a small right sleeve above the elbow to a braided on the wrist, leaving the arm below the elbow bare.

There is a return to colors this season which is usually expressed in a conspicuous girly brocade of beaded tulle. Metallic brocade being used. Serge and tulle are in favor also. Both the serge and tulle street dresses and georgette afternoon dresses are being trimmed with steel beads, nail heads and other devices to attract attention. These trimmings are in very brilliant colors. Fur and embroidery is also being used this season.

Taffeta is shown mostly for picture frocks for young colors. Georgette crepe is used in a lavish manner for evening dresses.

The lines of the new dresses are long and the waist is longer, which seems to balance the longer skirts. Beaded dresses seem to be the latest and most extensively used. The inclination is to the beaded effects because of the Spanish influence. One always pictures the Spanish dress as long, highly beaded and of brilliant colorings with flowing sleeves. Maroon, vermillion blue, platinum gray, pheasant shade, tangerine and African brown are among the colors this season which seem to be unusually popular. Materials as Mousme, canton crepe, tulle and velveteen are popular also.

Sports costumes this fall are self-expressive as all our other autumn modes. Black and white are combined in many many ways. Sleeveless jackets for the early season are great favorites.

This season will launch attractive head wear in grosgrain and moire ribbons as well as daisy and all-weather hats. Suits, especially black will be worn and taffeta combined with tulle.

The good old comfortable shapes, such as the sailor and turban, will be with us again, as well as all the variations of the clovefitting and off-the-face hat.

Sports wear demands the felt this year, with the most original and unique decorations ever devised for the betterment of the adorning male. Colors know no limits. A single hat may vie with the rainbow.

It can be truthfully said that American men are becoming better dressed and more carefully groomed as a whole. Not offensively so, as some are inclined to infer—for it's almost an impossibility to even imagine that of our virile, careworn, outdoor youths who so valiantly represented our manhood in the trenches. But wholesomely trim and immaculate they are becoming.

It is true that most men's fashions originate in England, but they are in complete accord with an athletic individuality that is distinctly American.

### Fourth Round

The fourth round will be as follows:

Monday, Sept. 26—N. B. Griffin vs. Richard Taylor at Golf Club.  
Monday, Sept. 26—Paul Williams vs. Tom E. Williams at Golf Club.  
Monday, Sept. 26—Clifford Taylor vs. Chas. Hyland at Rose Ridge court.

Monday, Sept. 26—Winner of the Gloucester-Chasing game vs the winner of the Taylor-Mumper game at York Park, east court.

Monday, Sept. 26—Winner of the Stanley-Jordan game vs winner of the Wylander-McNamara game at Rose Ridge court.

It had been planned to play the semi-finals in the Women's Tournament today, but as the grounds will not be in shape they will be played tomorrow. Madlyn Gloekner and Charlotte Scheffler will play Mrs. Harry Revare and Mrs. Jack Hyland, while Edna Marting and Lena Hauck will play Mrs. H. Stedley and Isabel Musser. The winners of these two games will play each other on Friday for the Women's Championship of the city, weather permitting.

### Junior Doubles

The number of entries for the Junior Doubles is unexpectedly large. Nine teams have entered, when only four or five were expected. These games will be played off as rapidly as possible, at least one game a day being played. The teams that have entered are as follows:

Richard Young and Chas. Reitz, representing York Park.  
Bernard Moore and Robt. Masoncup, representing the Highland Court.  
Gilbert Fuller and Randolph Swick, representing the Nature Troop.  
Lawrence Kimble, Wm. Booker and H. Thompson, representing the Nature Troop.

Harold Book and Paul Brunner, representing York Park.

Harold Flowers and Carlos Jones, representing York Park.

Sylvan Jackson and Chas. Wertz, independent.

Paul Lykens and Howard Flowers, representing York Park.

Harold Hubert and James Duduit, independent.

The tournament will be opened by the Young-Reitz team playing the Fuller-Swick team on Thursday. The same rules will hold as in the singles. Two defeats will be required to eliminate a team. In case a player partner does not show up for the game, he may take anyone in his place who is not registered on another team, and is not more than 16 years old.

### First Round

Thursday, Sept. 22—Richard Young and Charles Reitz vs. Gilbert Fuller and Randolph Swick, at York Park, east court.

Friday, Sept. 23—Lawrence Kimble and Wm. Booker vs. Chas. Wertz and Sylvan Jackson at York Park, middle court.

Saturday, Sept. 24—Bernard Moore and Robt. Masoncup vs. Harold Flowers and Carlos Jones at York Park, east court.

Saturday, Sept. 24—Harold Book and Paul Brunner vs. Paul Lykens and Howard Flowers at York Park, middle court.

### Second Round

Monday, Sept. 26—Harold Hubert and James Duduit vs. Richard Young and Chas. Reitz at York Park, east court.

Tuesday, Sept. 27—Bernard Moore and Robt. Masoncup vs. Lawrence Kimble and Wm. Booker, on York Park, middle court.

Wednesday, Sept. 28—Gilbert Fuller and Randolph Swick vs. Harold Flowers and Carlos Jones, York Park, east court.

Thursday, Sept. 29—Harold Book and Paul Brunner vs. Chas. Wertz and Sylvan Jackson on York Park, east court.

Friday, Sept. 30—Paul Lykens and Howard Flowers vs. Harold Hubert

and James Duduit on York Park, east court.

All games postponed by weather and otherwise should be played off not later than Saturday, Oct. 1st.

As is generally the case in tennis contests, experience was the victor last evening, when Mrs. H. Stedley and Miss Isabelle Musser defeated Misses Madlyn Gloekner and Charlotte Scheffler in two straight sets in the women's doubles tournament. This is the first year for the defeated team while the winners have been playing several years. The scores were 6-1 and 6-2 the first set going to their opponents before Misses Gloekner and Scheffler fully realized they were in the game. The overwhelming defeat in the first set was a big factor in their second defeat, the less experienced players giving up all at once to the Millbrook team. This was the first defeat for the York Park team and makes the women's tournament race stand as follows: Mrs. H. Revare and partner, no defeats and three teams Miss Edna Marting and Miss Lena Hauck, Miss Isabel Musser and Mrs. H. Stedley and Charlotte Scheffler have suffered one defeat.

Monday N. B. Griffin defeated Charles Storck at the Golf Club, 7-5, 6-3. Yesterday Albert Chasing defeated to William Bell.

In the women's singles Mildred Werner defeated Grace Runk, 6-4, 6-4 on the Selly court.

Howard Flowers defeated Carlos Jones in the junior tourney 6-3, 6-4 which is the same score by which James won from Flowers a few days ago.

Mrs. C. M. Donaldson is scheduled to play Isabel Musser today in the women's singles while Robert McNamara is scheduled to play George Thomas in the men's games. Donald Thomas also has a postponed game to play with Thomas.

## TENNIS NEWS

The first two rounds of the Men's

Singles were completed Tuesday night with the exception of two games. Geo. Thomas has still to play Robt. McNamara and Donald Jordan. He will try to get these two played off today and Thursday, so as to get the slate clear.

N. B. Griffin, Paul Williams, Chas. Hyland, Clifford Taylor, P. G. Wylander, Richard Taylor and Tom E. Williams are still undefeated. Chas. Gloekner, Albert Chasing, Chas. E. Taylor, Earl Mumper and Richard Stanley have won one and lost one. Eight players have been eliminated.

Third Round

The third round will be as follows: Friday, Sept. 23—Chas. Gloekner vs. Albert Chasing on York Park, for the game.

Wonder What She Thinks About When He Reads The Paper — By Briggs

<p>I'VE SIMPLY GOT TO GET SOME MONEY OUT OF HIM BEFORE HE GOES TO TOWN. I'LL WAIT A MINUTE OR TWO SO HE WON'T BE HERE.</p>	<p>I WISH THERE WASN'T SUCH A THING AS A NEWS-PAPER. I CAN READ THE WHOLE THING THROUGH IN TWO MINUTES.</p>	<p>HE HAD TO READ EVERYTHING SO THOROUGHLY, AND ALL WONDER IF THERE'S ANY GOOD GALS ADVERTISED TODAY. I'VE SIMPLY GOT TO HAVE A LITTLE CHANGE IN MY PORE.</p>	<p>I WONDER IF HE'S IN GOOD HUMOR. HE'S LAUGHING AT SOMETHING — THAT'S GOOD — I HOPE THE MARKET REPORTS PLEASE HIM. I'VE GOT TO HAVE SOME MONEY THAT'S ALL.</p>
<p>OH DEAR! HE'S GOT TO THE PAGE SCORES — I'LL HAVE TO INTEREST HIM THAT'S ALL — I'M DESPERATE. I'VE BEEN READING UP TO THE LAST MARK. THEN I HAVE TO TALK SO FAST TO GET EVERYTHING IN.</p>	<p>IT'S MONEY I WANT AND MONEY IS GOING TO HAVE TO BE IN THE WORLD. I'VE BEEN READING UP TO THE LAST MARK. THEN I HAVE TO TALK SO FAST TO GET EVERYTHING IN.</p>	<p>WELL, I'VE GOT TO PRAY FOR HIM. ALL I MUST HAVE IS A CHANGE. CHAS. WILLIAM! — BECAUSE, SURELY.</p>	<p>WELL, CHAS. LOOK AT THAT PAGE! I'VE GOT TO GO. I HAVE A LITTLE CHANGE.</p>

# Farming for Profit? then use Tested Want Ads

Nowadays the tiller of the soil is more than a farmer, he is a manufacturer. His land is his factory--he makes crops. He is a business man, and his business is farming for profit.

Old fashioned methods do not pay. Modern machinery has taken their place. Modern machinery is saving time, labor, money. It is increasing profits. The crop manufacturer, like every other manufacturer, is constantly searching for and substituting new methods for old--new methods of manufacturing his

crops, and new methods of marketing them quickly, economically--at the greatest profit. The most successful crop manufacturer not only sells his products at the top price, but he buys the equipment to manufacture his products at the best price obtainable.

In carrying on this profitable business, the successful farmer, like any other manufacturer, knows the great value of advertising.

For him, the most profitable kind of advertising is the use of classified, and for the classified advertisers of Portsmouth and surrounding territory--Tested Want Ads.

Tested Want Ads will get money, labor, buyers.

Tested Want Ads are economical--because they produce results surely and quickly.

*Tested Want Ads can be used to buy, sell, exchange, rent or hire:*

Crops	Jelly	Cordwood
Live Stock	Cider	Logs
Machinery	Honey	Raw Furs
Labor	Fruit	Farm Land
Timber	Seeds	Automobiles
Money (loans)	Feed	Tractors
Harness	Furniture	Trucks
Horses	Guns	Preserves
Butter	Dogs	Vegetables
Eggs	Gravel	Lard
Poultry	Stone	Sausage
Milk Cream	Fertilizer	Practically
Cheese	Engines	Anything
Jam	Lumber	

Tested Want Ads are just as much a necessity to the successful farmer as any other new time and labor saving device. For the crop manufacturer, or any other manufacturer, Tested Want Ads will do wonders--will get what is wanted when it is wanted--at the lowest possible cost.

If you have never tried this great power for buying and selling, do not hesitate any longer. A Want Ad expert is at your service to frame an ad that is sure to do business for you.

Tested Want Ads will produce results--profitable results for you. Try their great pulling power at once, by consulting our want ad department today. Phone 446. The above list of want ad subjects show you what you can advertise to advantage. Do it now and you will be a regular Tested Want Ad user.
